## THE GOLDFIELD MINES.

The Goldfield Consolidated Mines company came to the front yesterday with its usual dividend of 30 cents a share, or a distribution of \$1,059,741 to the fortune holders of the stock. This means that ground that was located five years ago has paid out, through leases and company operations, the magnificent total of \$10,350,387. Probably for the same acreage there is no section so endowed with wealth as the holdings of this one company that has made the name of Nevada famous all over the world. In the first six months of 1909 the Consolidated will have paid in dividends the record-breaking sum of \$2,119,482, or an aggregate of \$4,592,212 since the company was organized, with a further distribution that reckons back of the time when the merger was formed, as the following table will evidence:

|  |              |
|--|--------------|
| Goldfield Consolidated Mines company ..... | \$4,592,212  |
| Mohawk .....                               | 568,000      |
| Red Top .....                              | 128,175      |
| Combination .....                          | 873,000      |
| Mohawk Combination lease .....             | 115,000      |
| Mohawk Jumbo lease .....                   | 198,000      |
| Frances-Mohawk lease .....                 | 546,000      |
| Hayes-Monnette lease .....                 | 3,000,000    |
| Ish Sheets lease .....                     | 260,000      |
| Jumbo mine .....                           | 70,000       |
| Total .....                                | \$10,350,387 |

This is not all, as other leases on the famous property were not carried in the dividend table compiled by statisticians who made a specialty of mining securities. These leases made no reports, and many of them were in the nature of private corporations that rendered no accounting of their operations except to the parent company. This is a record of which Goldfield should be proud and help the onward movement for the further development of this district. —Goldfield Tribune.

"CASEY JONES" ARRIVES.  
 Over three thousand waltzes were disposed of last night at the Big Casino, where a fire sale was in progress. A large crowd was attracted by the reopening of the burned section and the ten-piece orchestra provided the best of music. The feature of the evening was the "Casey Jones" two-step, which made a decided hit.

It means 10 per cent on the original tax, \$2 for advertising, \$1.50 for a certificate of sale, and 3 per cent per month on the whole amount from date of sale. It means the saving of annoyance and trouble.

Delinquent tax sale will be held at the court house in Tonopah on the third Monday in July, 1909.
